HEALTH PERMIT

No. 14 CRSPB/22.10.2021

The Commission for products, materials, chemical substances/mixtures, and equipment used in contact with potable water of the National Institute of Public Health / Bucharest Regional Public Health Center, pursuant to the Technical Evaluation Report no. 14 CRSPB/22.10.2021, decides that the following products that come in contact with potable water can be marketed and used in Romania, in accordance with legal provisions in force.

The products used in contact with potable water:

1.1.The commercial denomination of products used in contact with potable water:

Multi-layered pipes made of PP-R enforced with glass fiber, “STRONG PIPES” brand.

1.2.Field of use:

The products are used in the cold potable water supply installation networks (23°C).

1.3.Conditions of use:

- Information regarding the manufacturer and the product's use must be attached upon marketing the product; labeling shall be done in accordance with the legislation in force.
- The Health Permit is given for:

Multi-layered pipes made of PP-R enforced with glass fiber, "STRONG PIPES" brand, a mixture of polypropylene (HOSTALEN PP H5416 – Manufacturer Lyondell Basell Industries Holdings B.V.) with glass fiber insertion, with a ND of 20, 25, 32, 40, 50, and 63 mm for pressures of use of 20 bar (NP20). The layer that comes into contact with the potable water is made of polypropylene colored with masterbatch, in proportion of at least 1% and at most 2%, of a white color (ROMBEST WHITE PP 9507 – manufacturer ROMCOLOR).

Manufacturer: **S.C. TE-MA ROMANIA S.R.L.**

2.1. Address: Official headquarters: Romania, Bucharest, Sector 6, Bld. Timisoara 60-62

Work point: Ilfov county, Bragadiru locality, Prelungirea Ghencea 65

2.2. Country: Romania

The health permit for the products used in contact with potable water is granted in accordance with the Order of the Minister of Health no. 275/2012 regarding *the approval of the health regulation procedure for the marketing of products, materials, chemical substances/mixtures, and equipment used in contact with potable water*, and pursuant to Art. 10 under Law no. 458/2002 regarding *the quality of potable water*, republished.

The Health Permit is valid for a period of time during which the composition and quality of the products is not modified. Any modification of the products' composition and quality shall automatically incur the invalidity of the Health Permit.

President of the Commission,

Dr. Irina STOIAN

CHIEF PHYSICIAN C.R.S.P.B.

Dr. Simona PARVU
